a)-(d) or (f).
plication No eccived in this national stage application from the n to file a reply complying with the requirements on. ed EXAMINER'S AMENDMENT or NOTICE OF oath or declaration is deficient. Review (PTO-948) attached ment or in the Office action of en on the drawings in the front (not the back) of o 37 CFR 1.121(d). MATERIAL must be submitted. Note the OF BIOLOGICAL MATERIAL.
ce of Informal Patent Application (PTO-15:2) view Summary (PTO-413), er No./Mail Date niner's Amendment/Comment niner's Statement of Reasons for Allowar.ce or

Art Unit: 3736

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kenneth Wargo on January 21, 2005.

The application has been amended as follows:

In claim 1, line 1, the word "system" has been changed to-process --.

In claim 2, line 1, the word "system" has been changed to-process --.

In claim 3, line 1, the word "system" has been changed to-process --.

In claim 4, line 1, the word "system" has been changed to-process --.

These changes have been made because claims 1-4 define a process, not a system.

The following is an examiner's statement of reasons for allowance: Claims 1-11 define over the art of record in that none of the art of record determines a baseline glucose reference level by taking the square root of the product of fasting glucose and glycosylated or glycolated hemoglobin and uses the is as a baseline which is adjusted by variations in the measured temperature difference between the tragus of the ear and the anthelix of the ear, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Art Unit: 3736

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Khalil et al 2003/0023151 (paragraph 0016), Wong et al (column 3, lines 34-62) and Galen et al 2004/0265941 all discuss making fasting glucose and glycolated hemoglobin measurements, but determine the square root of the product and use this value as a base line to be adjusted by ear temperature differences, as recited in the claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (571) 272-4731. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (571) 272-4726. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 10/646,881
